What is the Governor's Committee?

The Committee is composed of twelve gubernatorial appointed members, at least seven of whom must be persons with disabilities. The Committee is supported by a staff of five state employees. Officials from various Texas state agencies serve as advisory ex-officio members.

What does the Committee do?

The Committee and staff serve as subject matter sources of information on the abilities, rights, problems, and needs of Texans with disabilities. They advise the Governor and the legislature on issues related to Texans with disabilities. Although the Committee does not have enforcement legislation linked to its enabling statute in the Texas Human Resources Code, Chapter 115, it develops policy recommendations based on citizen input and research.

Does the Committee work with local committees and organizations?

The Committee develops statewide networks of volunteer community-level committees to help promote dissemination of information and support the rights of Texans with disabilities. It provides information and technical assistance to public and private agencies and businesses to promote and facilitate disability rights laws.
